

RANCHO PAUMA MUTUAL WATER COMPANY
Updated Schedule of Rates – Effective April 18, 2022

The Board of Directors of RPMWC has, upon staff advice, determined that under present conditions, the Tier I Base Allocation shall be 608,000. Each customer's Tier I units in a month are determined by the number of water shares owned by the customer multiplied by the per share Base Allocation as set by the Board of Directors. Monthly Base Allocations for potable water are based upon usage in prior years. Allocations for Non-Potable water (not shown) are by negotiation with customer. A fixed monthly Infrastructure Charge is charged depending upon meter size. Electrical Energy costs are additional, based on actual SDG&E monthly charges calculated per Billing Unit for total water usage and allocated to each customer pro-rata to their actual usage expressed in Billing Units. At the April 18, 2022 Regular Meeting of the Board, the Yuima Fixed Charge and Yuima Capacity Charge pass-throughs from Yuima MWD were removed from Shareholder monthly billing. Instead, these charges which were based on meter size and prior year Tier III usage, will be paid in full by RPMWC as an operating expense.
